KELLEY, STIGER & CO., COR. FARNAM AND FIFTEENTH STS.

SAMPLE OF REFORM ECONOMY

State Money Used to Reward Men for Their Campaign Services.

SOME POPOCRATIC POLITICAL SNAPS

Fictitious Positions to Which Good Salaries and Little Work are Attached Held by Men Who "Fix Peaces."

LINCOLN, Aug. 6.—(Special.)—In spite of the many pretenses of reform and economy the present state officers maintain at the capitol building a number of deputies who have no legitimate duties to perform, and who spend their whole time in fixing up or tearing down political fences.

THE JOB WENT HOME.

Lincoln Local Convention. The eighth annual convention of the Young People's Christian Union of the Pawnee presbytery will be held in this city next Monday and Tuesday at the United Presbyterian church.

SOAKED AT THE CAMP GROUNDS.

Edwirth Leberkus Get a Good Wetting, but Do Little Grooming. LINCOLN, Aug. 6.—(Special.)—The people camping at the Epworth assembly got a good wetting down last night, some of the tents were thoroughly drenched.

GOOD RAINS IN NEBRASKA

Copious Showers Fall All Over the Antelope State.

COME JUST IN TIME TO SAVE THE CORN

Crop is Now Assured and the Farmer Rejoices at the Outlook—Special Reports from the Bee's Correspondents.

Specials to The Bee from its correspondents in Nebraska report a fine crop of rain all over the state Friday night and Saturday morning. This insures the corn crop and puts pastures in excellent condition. Detailed reports follow.

ASHLAND, Neb., Aug. 6.—(Special.)—A heavy rain fell here at 11 o'clock, the heaviest rains of the season. It began raining about 11:30 and continued to rain in torrents for about an hour. All during the night the storm prevailed at irregular intervals. The total amount of rainfall for the night was 2.5-3 inches more than the entire rainfall for the month of July—1.15 inches. The storm was heavier north and west, and the streams from that direction are flooded, washing the corn from many of the fields.

BRADSHAW, Neb., Aug. 6.—(Special.)—A splendid rainfall visited this locality last night. About 1 1/2 inches fell and farmers are feeling quite jubilant, as it assures a fair crop and renders the work of fall plowing easy.

BRAINARD, Neb., Aug. 6.—(Special.)—This vicinity was visited by 1 1/2 inches rain last night, the first of any importance in several weeks.

CALHOUN, Neb., Aug. 6.—(Special.)—A heavy rain fell here last night and this morning. It will help out late corn.

CENTRAL CITY, Neb., Aug. 6.—(Special.)—Merrick county had the heaviest rain of the season last night. In the northern part of the county three inches of water fell.

COLUMBUS, Neb., Aug. 6.—(Special.)—About 8 o'clock last evening a rain began to fall here and continued until 11 o'clock this morning. The gauge at the government station registered 3.33 inches, and it will do a vast amount of good to crops and put the soil in good condition for fall plowing and seeding. The total rainfall for July was less than one inch—0.82 inch. There are some pieces of corn in this county which will prove to be total failures.

DAVID CITY, Neb., Aug. 6.—(Special.)—A soaking rain visited this section of Butte county last night, amounting to 1 1/2 o'clock. Two and a quarter inches of water fell before daylight. During the storm lightning struck the electric light wires and burned out the dynamo for the incandescent light, but doing no further damage. This rain puts the ground in splendid condition for plowing and is of untold benefit to the corn crop.

DUNCAN, Neb., Aug. 6.—(Special.)—A terrific electrical storm passed over this vicinity during last night. It first came up from the north and after a heavy rain the wind changed to the south and continued until daylight. About three inches of rain fell and the corn crop is now an assured fact. Lightning struck in N. Weisenthal's herd of blooded Poland China hogs, paralyzing several of them. Small grain is most all in the stack in good shape.

EDGAR, Neb., Aug. 6.—(Special.)—A thunder storm of unusual proportions visited this section last night. The rain fell in torrents for nearly two hours, the precipitation amounting to about two inches. Corn and other crops never suffered from rain and this timely shower will greatly improve crop prospects in this section.

FAIRFIELD, Neb., Aug. 6.—(Special.)—Last night two and fifty-five one hundredths inches of rain fell. There is a good prospect now that corn will make one-half to two-thirds of a crop.

FAIRMONT, Neb., Aug. 6.—(Special.)—It commenced raining here last night at 11 o'clock. Two and a half inches of water fell in four hours. This insures a fair crop and puts the land in excellent shape for fall wheat.

FREMONT, Neb., Aug. 6.—(Special.)—There was a fine shower here last night which moistened the ground in good shape and will help the corn crop. About one inch of rain fell. The rain proceeded by a heavy wind. Several branches were broken off the trees in the park where the veterans were encamped, but no tents were hit.

GENEVA, Neb., Aug. 6.—(Special.)—Yesterday was an excessively warm, windy day, but clouds were gathering and a heavy rain fell at about 10 p. m. A heavy thunder storm from the northwest reached here and rain fell the rest of the night, with some wind. Between three and four inches of water fell. This was never more acceptable.

GRAND ISLAND, Neb., Aug. 6.—(Special.)—A fine rain of two and a half inches fell all over Hall county last night, and there is immense rejoicing among the farmers. It makes absolutely sure an immense best crop and a fine corn crop. The rain was accompanied by severe wind and electrical storm which did some damage to crops and fences. The jewelry store of Max Egge and the residence of Frank Manley were struck by lightning, but little damage was caused.

HARVARD, Neb., Aug. 6.—(Special.)—One of the worst thunder storms experienced in years came up last night from 10 p. m. to 1 o'clock this morning, during which time two inches of water fell. This will insure all that can be raised from the corn crop at this time, the amount being unknown of damage done by dry weather, heretofore.

HASTINGS, Neb., Aug. 6.—(Special.)—A rainfall of four inches and sixty-eight hundredths fell in Adams county last night. The heaviest rainfall that has fallen here this year. Although corn is not in very favorable condition yet the heavy rain of last night will do much toward making a corn crop of about 65 per cent.

HUMPHREYS, Neb., Aug. 6.—(Special.)—This section of the state was visited by a soaking rain Friday night and the farmers are correspondingly pleased. The recent dry spell had begun to tell on the corn crop in some parts of the county and some fields were beginning to burn slightly.

KEARNEY, Neb., Aug. 6.—(Special.)—A heavy wind and rainstorm passed over this section of the county last night, but no damage was done so far as reported except to blow down and break off a few shade trees. The rain insured a fine crop unless something very unexpected happens in the near future. Wheat is turning out from twelve to thirty bushels per acre and oats are yielding very well.

LOUISVILLE, Neb., Aug. 6.—(Special.)—This part of Cass county was visited by a heavy rain last night which lasted for several hours. The corn crop in this section is in good condition and will yield well.

MALMO, Neb., Aug. 6.—(Special.)—A heavy shower passed over this section of the state last night, accompanied by considerable lightning and heavy thunder. Previous to the rainfall the evening was very warm and continued so until late. At 10:30 o'clock the rain commenced and continued until nearly morning. It will be of much benefit here.

MEAD, Neb., Aug. 6.—(Special.)—A fine rain fell here last evening which assures a fair crop of corn in Saunders county.

ORD, Neb., Aug. 6.—(Special.)—A fine rain fell here last evening, which will be of great benefit to late corn and will brighten up the pastures.

RANDOLPH, Neb., Aug. 6.—(Special.)—In a week this vicinity has had four nice

gentle rains, and within twenty-four hours the soil is now in good shape for planting in all about four inches. The greater part of the large wheat and oat crop is in shock. Corn is eating well and except in very few places of fine color.

ST. EDWARD, Neb., Aug. 6.—(Special.)—A heavy rainstorm set in here at 8 o'clock last night and continued all night.

ST. PAUL, Neb., Aug. 6.—(Special.)—A violent thunderstorm, accompanied by a heavy rain, came up over St. Paul and vicinity last evening about 7:30 and with short intervals continued until after 12 o'clock. The rainfall here amounted to 1.95 inches and will save corn.

SCHUYLER, Neb., Aug. 6.—(Special Telegram.)—Three and one-fourth inches of rain fell here last night, the first good rain since the middle of June. It enhances the prospect for corn 20 to 30 per cent.

SEWARD, Neb., Aug. 6.—(Special.)—Ninety-one-hundredths of an inch of rain fell in this vicinity last night, which will be of great benefit to the corn crop, some of which was nearly burned up by the hot sun of the day.

SHELTON, Neb., Aug. 6.—(Special.)—A fine rain fell here last night which was needed and will do much good, as the corn was withering considerably from the hot wind of the last two days. Corn in this locality will make a good half crop.

SILVER CREEK, Neb., Aug. 6.—(Special Telegram.)—Rain fell nearly all night, soaking the soil and making the corn stand a fair crop. Comparatively little corn was already past help.

SUTTON, Neb., Aug. 6.—(Special.)—The long spell of dry weather was broken last night by a heavy rain. Flowing will now begin in winter wheat. The corn crop will be light.

SURPRISE, Neb., Aug. 6.—(Special.)—One and a quarter inches of rain fell last night, which will help corn very much and make plowing good. Oats in this vicinity will make a good half crop. The acreage there averages eighteen bushels.

SYRACUSE, Neb., Aug. 6.—(Special Telegram.)—The drought in this section is broken. Rain fell last night to depth of 1.67 inches. Within the past three weeks over sixty acres of winter wheat has been shipped from this point.

TEKAMAH, Neb., Aug. 6.—(Special.)—This vicinity was visited by a heavy rain last night, being the heaviest of the season. It began about 9:30 last evening and continued until 7 o'clock this morning, during which time over three inches of water fell.

TOBIAS, Neb., Aug. 6.—(Special.)—The drought was broken here last night by a good rain of 2 1/2 inches. Although rather late it will be of great benefit to the corn crop.

VALPARAISO, Neb., Aug. 6.—(Special.)—The much needed rain came last night in sufficient quantity to insure the corn crop up to a three-quarter crop, some being past the stage of recovery.

WALTON, Neb., Aug. 6.—(Special.)—About two inches of rain fell over Saunders county last night. The clouds gathered in the northwest in the afternoon with a southeast wind blowing, but about 10 o'clock in the evening the wind shifted to the north and blew steadily for a time and then calmed, where it stayed for a time and continued for hours. This is the first good soaking this county has had for about two months and as a result the corn crop has been shortened about one-third. This rain, however, will not only improve the corn prospect, but insure the corn crop.

WEAVER, Neb., Aug. 6.—(Special.)—The long drought was broken here last night by a rain of two and twenty-three one hundredths inches, insuring the corn crop.

WESTERN, Neb., Aug. 6.—(Special.)—The long drought was broken here last night by a rain of two and twenty-three one hundredths inches, insuring the corn crop.

WYMORE, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.

WYOMING, Neb., Aug. 6.—(Special.)—A nice rain fell last night. About one-half inch of rain fell. The rain insured a fair crop and puts the land in excellent shape for fall wheat.
